## JAPANESE CROWN PRINCE TO TRAVEL

Although M. Saito, the Japanese Consul General, has not been officially informed of the coming of the Crown Prince of Japan, it is commonly known he will make a tour of America and Europe shortly. Previous to his marriage, it was expected that he would start for a tour of the world. The Japanese newspapers were full of his intended visit abroad, but the trip was deferred.

Recently, the management of the Hawaii Shingo received information from Japan to the effect that His Imperial Highness would start pretty soon. In his tour abroad, the Crown Prince will be accompanied by Prof. Boitz, of the Tokyo University, who has been in Germany for some time. The Japanese Imperial family place much confidence in him and he has been sent for to accompany the Crown Prince on his travels.

### MAY CHARGE MORATO

(Continued from Page 1)  
sit beside him, and Peters objected to this, stating that as the other witnesses had been told to retire from the court-room, Morato should also go outside. Correa objected, but Morato was sent outside with the other witnesses.

Dr. Marquez, who had translated the offending article for the defense, was the first witness called by the prosecution. Correa taking advantage of this translation, Peters called attention to this, but said that although the translation was his own personal property, and that he could not be forced to produce it, he would allow it to be used. Dr. Alvarez then read the translation, and considerable time was spent in the pointing out of points in which it differed from the translation of portions of the article as they appeared in the complaint. Thus, for instance, in one place the article employed a word which the complaint had translated as "seconded" but which the witness said meant "racial."

On further examination attention was called to the articles which had been written by Morato, and which had caused Durao to pour out words of wrath. These articles, Dr. Marquez said, were anarchistic in nature, and considerable time was spent in discussing the exact meaning of the various phrases employed. Finally, after a very trying examination, Dr. Marquez was permitted to leave the stand, and the hearing was continued until this afternoon at 2 o'clock. It was at this time that Peters made his remark as to the action which might be taken against Morato.

The case has attracted much attention among the local Portuguese. A large number of them were in court today, either as witnesses or as interested spectators, many of them being among the most prominent members of the local Portuguese community. Consul Canavaro had been subpoenaed as a witness for the defense. He came in answer to the summons, but pointed out that as he was a diplomat the service of such process on him was slightly irregular. The Court then made a formal request that he remain, and this he courteously granted.

For golf players or any other athletes who enjoy a Scotch highball after exercising, we confidently recommend a combination of whiskey and Tansan water. It foams and effervesces like champagne.

Judge Sturtevant recommends important reforms in banking laws to legislative Banking Committee; Wolfe and Leavitt in tilt over the State Bank Board.

Jenkin Lloyd Jones believes sectarianism, partisan politics and greed for display are obstacles to the betterment of life.

## STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

## Lydia E. Pinkham's Vegetable Compound

For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

## Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

## ST. PATRICK'S DAY IS CELEBRATED

St. Patrick's Day was celebrated last night at Dreier Hall, which had been placed at the disposal of the entertainment committee by the St. Louis Alumni Association. Besides the American and Irish flags, which formed the decorations, there were green streamers and yellow harps in abundance.

Frank Creedon, president of the local branch of the A. O. H., received the guests. His speech, though brief, was most interesting.

Patrician, who was in fine voice, followed with the song, "Rose of My Life," by Fabian Rose.

Miss Betters next entertained the guests with a piano solo, "Mountain Streams." Miss Payne sang a song and Mrs. Wickham gave a recitation, which was well received. Miss Nielsen and Pat McInerney performed their parts well. After the program refreshments were served. Bishop Libert and various prominent people were in attendance.

## MANOA IMPROVERS HAVE MANY PLANS

At the residence of Judge H. E. Cooper a meeting of the Manoa Improvement Club was held last Monday evening. Financial assistance will be secured for a new tennis club. It is hoped that Mr. Rendon, who owns a portion of the land, may be willing to exchange with Oahu College for some equally valuable lots in College Hills. During the evening Judge Cooper exhibited specimens of lemons and navel oranges raised in his orchard.

A plan of planting the entire length of upper (West) Manoa road with hardy trees will be taken up. Byron O. Clark, the well known horticulturist, wrote a letter to the Committee on Forestry. The letter contained suggestions as to how the tree planting can be successfully carried out.

### TRANSPORT MESSAGE

(Continued from Page 1)  
and the weather report is the result. Isbell has "talked" a distance of over 2000 miles a number of times over the Coast, and he will attempt to reach as far as possible with his wireless messages here. The delicate instruments and appliances which he has with him here render the work much easier, surer, and more far-reaching.

As an illustration of the intricate system in use in the U. S. Weather Bureau Service, Manager Stockman submitted to inspection one of the cipher reports of the Service. These are sent out twice each day from all over the United States. The message as it came to the local office was as follows:

"Uretha Hyatt Dureas Enough."

Translated, it reads as follows:

"A. M. Report. Barometer reduced to sea level and standard gravity, at 45 degrees—3000 inches. Temperature of air—74. Rainfall, trace at 8 p. m., and .01 at 8 a. m. Direction of wind, N. E. State of weather, clear. Max. temperature in last 24 hours, 74. Velocity of wind, light (less than 5 miles). Min. temperature in last 24 hours, 68."

Expert Isbell, who took the Thomas message, reports as follows: "This message was sent at 8:03 p. m. and again at 9:03 p. m.; first in Continental code and next in Morse code; good signals."

"At 7:15 p. m. got signal from Hilonian about two hundred miles from Honolulu. Heard steamers Enterprise and Hilonian talking from 7 p. m. until 10 p. m. Picked up Hilonian at 5:15."

The committee of the douma which has had the subject in charge has decided to recommend the exclusion of M. Kotablak and M. Kisorotoff.

## Vapo-Cresolene

(Established 1879)  
An Inhalation for  
Whooping-Cough, Croup,  
Bronchitis, Coughs,  
Diphtheria, Catarrh.

Cresolene is a Boon to Asthmatics.

Does it not seem more effective to breathe in a remedy for disease of the breathing organs than to take the remedy into the stomach?

Cresolene cures because the air, rendered strongly antiseptic, is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

These of a Cough-sensitive Tendency will find immediate relief from Coughs or Inflamed Condition of the Throat.

ALL DRUGGISTS.

Send postal for descriptive booklet.

Vapo-Cresolene Co.

120 Fulton Street, New York.

## WEEK OF RAIN ON M'BRYDE PLANTATION

Stenographer Kearns returned this morning from a stay on Kana. He reports that during his trip he went to McBryde plantation. He found that section has been blessed with a full week of good rain. Instead of ailing comfortably for two days as it did here, it started Sunday week and kept at it for the full seven days. As a consequence all the reservoirs are filled and everything is in fine shape for the growing crop.

The crop that is being taken off now is also showing splendid results and a sure 12,500 tons is predicted. The overrun of estimate is continued on all the fields.

### Business Notices.
